Aman Sonwani

CONTACT

Email: amansonwani005@gmail.com
GitHub: https://github.com/CyberMatic-AmAn
LinkedIn: https://www.linkedin.com/in/aman-sonwani-a95b0a326/

SKILLS

Languages: Python, SQL, C++
Machine Learning: PyTorch, TensorFlow, Scikit-learn
Data Analysis & Visualization: NumPy, Pandas, Matplotlib, R, Statistics
Web: React, Node.js, Tailwind CSS
Tools: Git, GitHub, WolframAlpha, Oracle VM

EDUCATION

Chhattisgarh Swami Vivekanand Technical University (CSVTU) 2024 – Current
B.Tech (Hons.) in Computer Science and Engineering (Data Science) CGPA: 7.29
Coursework: Data Science, Artificial Intelligence, Probability & Statistics, Discrete Mathematics

Kendriya Vidyalaya Narayanpur, Chhattisgarh 2024
Senior Secondary 79.8%

PROJECTS

AI Voice Fraud Detection
Python, PyTorch, Wav2Vec2
GitHub: https://github.com/CyberMatic-AmAn/Ai-Voice-detector-final

- Fine-tuned a Wav2Vec2 audio classifier in PyTorch for deepfake voice detection, labelling call audio as AI-generated or real human voice.
- Designed a real-time detection and prevention architecture against voice-cloning impersonation attacks on calls.
- Built for research and experimentation, with deployment as a production-grade security system as the goal.

AI Mock Interviewer
React, Node.js, LLM
GitHub: https://github.com/CyberMatic-AmAn/ai-interviewer

- Built an AI-powered interview-preparation platform in React and Node.js, giving users one place to practise for interviews.
- Added a real-time chatbot, posture analysis and interview simulations, covering the main parts of interview preparation.

Cleaneasy
Python, Data Cleaning, Data Analysis
GitHub: https://github.com/CyberMatic-AmAn/cleaneasy

- Built a Python library that simplifies data cleaning and preprocessing for data scientists and analysts.
- Designed a method-chaining API for readable, maintainable cleaning pipelines, with detailed logs and formatted outputs.

ACHIEVEMENTS

- Vice President, Nextronix Robotics Club.
- Zonal place, KAMP NASTA Mathematics Olympiad 2023.
